- II 500.2** Reference to a particular trade name, manufacturer's catalog or model number for descriptive purposes is intended to guide the Bidder in interpreting the requirements of the Engineer and/or the WCTID and should not be construed as excluding proposals on other types of materials, equipment and supplies. - II 500.3** Every effort shall be made by the Bidder awarded the Contract to deliver items by or before the time designated in the Contract. Any delinquency in such delivery without satisfactory written explanation directed to the WCTID may result in cancellation of the Contract and substitution of other goods. - II 500.4** In case of default by the Bidder or Contractor, WCTID may procure the articles or service from other sources without further advertising and shall hold the Bidder or Contractor responsible for any excess costs occasioned thereby, including any reasonable expenses incurred in procuring the articles or services.

- II 600.1** If the Bidder is in doubt as to true meaning of any part of Drawings, Specifications, or other Contract Documents, submit a written request for an interpretation therefor to the Engineer and the WCTID. II 600.2 Addenda may be issued not later than 3 working days preceding bid due date. Questions requiring interpretation within 3 working days of bid due date will be recorded and answered during the bid negotiations preceding the signing of the contract or may result in an extension of the bid due date at the sole discretion of the WCTID.

SECTION II 700 EXAMINATION OF PLANS, SPECIFICATIONS, AND SITE OF WORK

II 700.1 The Bidder is expected to examine carefully the site of the proposed Work, the proposal, plans specifications, contract forms, general conditions, and addenda, before submitting a proposal. The submission of a bid shall be considered evidence that the Bidder has made such examination and is satisfied as to the conditions to be encountered in performing the Work and as to the requirements of the plans, specifications, special provisions, general conditions, addenda and Contract.

II 700.2 Subject to public safety and convenience, prospective Bidders will be permitted to explore the site of the Work by boring or test pits, permits for which will be issued by the Owner. Explorations shall be at the sole risk and expense to the Bidder and under conditions of maintaining and restoring safety.

II 700.3 The WCTID and the Engineer does not make any representation of soil or foundation conditions or materials, nor does it represent that drawing may not be modified to meet changes in soil conditions encountered as the Work progresses. The Contractor must inspect the site of the proposed Work and must assume all risk as to the nature and behavior of the material which may be encountered in excavation, whether apparent on the surface or disclosed only in the course of the Work. Any geotechnical subsurface investigation or soil boring logs that may be provided by the WCTID are provided for general information only to Contractors for this project and do not change the obligations or responsibilities set forth herein. It is the sole responsibility of the Contractor to take any and all measures it feels necessary to determine the subsurface conditions prior to bidding and the nature and extent of the subsurface conditions (including variations, if any, between borings and observation locations) may not be evident until construction. In order to induce the WCTID to enter into a Contract for the work, Contractor represents that it understands its obligations hereunder and that: (a) during construction, it will be required to provide all labor, equipment, materials, and other measures to construct the improvements regardless of the subsurface conditions encountered; (b) No claims for additional costs will be considered for material, labor, equipment, or subcontractors/subconsultants to address subsurface conditions encountered during construction; and (c) costs for all related activities shall be incidental to the Project.

II 800.3 When analyzing the bids submitted, superior design, technology, workmanship, materials, size of component parts, operating costs, warranty, service facility etc. will be considered in addition to the price of the bid. It is WCTID's intent to accept the bid for which a thorough analysis of the bids submitted, proves to be the most suitable for the intended use. WCTID will consider awarding the Contract to the lowest and best Bidder, but reserves the right to reject any or all bids.

II 800.4 The WCTID further reserves the right to conduct such investigations and meetings as it deems necessary after receipt of bids to assist in the evaluation of any bid and to establish the responsibility, qualifications and financial ability of the Bidders, proposed sub-contractors and other persons and organizations to do the Work in accordance with the Contract Documents to the WCTID's satisfaction within the prescribed time limits. In order to facilitate this investigation, the apparent lowest and best Bidder may be required to complete a Bidders Qualification Questionnaire.

II 200.12 Laws to be Observed - The Contractor warrants that it is familiar with and agrees at all times to comply with the provisions of all Federal and State laws and ordinances and regulations of all political subdivisions, of the Workman's Compensation Laws, ordinances and regulations in any manner affecting the conduct of the Work and it shall defend, indemnify, and save harmless the WCTID and Warren County, Ohio and its representatives against any claims arising from the violation of any such law, ordinance or regulation, either by the Contractor or its agents, servants or employees or the negligence of such Contractor, agent, servant or employee.

SECTION 300 CONTRACTS

III 300.1 Requirements of Contract Performance Bond – Provided that the successful Bidder has not previously submitted a combined Bid Guaranty and Contract Bond with the Bid Proposal, the successful Bidder must, within ten (10) days after the award to him, and before entering into contract, furnish a bond in form consistent with the requirements of Section 153.54 and related sections of the Ohio Revised Code, to the approval of, and of the form prescribed by the WCTID, in an amount equal to one-hundred (100) percent (%) of the full amount of the bid. Award may then be made to the next lowest and best Bidder in the sole discretion of the WCTID or the Work may be readvertised, as solely determined by the WCTID. Said forfeiture shall be guided by the provisions of Section 153.54 of the Ohio Revised Code.

III 300.6.6 Information and Reports: The Contractor will provide all information and reports required by the Acts, the Regulations, and directives issued pursuant thereto, and will permit access to its books, records, accounts, other sources of information, and its facilities as may be determined by the WCTID, ODOT or FHWA to be pertinent to ascertain compliance with such Acts, Regulations, and instructions. Where any information required of a Contractor is in the exclusive possession of another who fails or refuses to furnish this information, the Contractor will so certify to the WCTID, ODOT or FHWA, as appropriate, and will set forth what efforts it has made to obtain the information.

III 300.6.7 Sanctions for Noncompliance: In the event of the Contractor's noncompliance with the nondiscrimination provisions of this agreement, WCTID will impose such contract sanctions as it, ODOT, or FHWA may determine to be appropriate, including, but not limited to:

- A. Withholding of payments to the Contractor under the Agreement until the Contractor complies, and/or
- B. Cancellation, termination or suspension of the Agreement, in whole or in part.

III 300.6.8 Incorporation of Provisions: Contractor must include the provisions of the above subparagraphs III.300.6.1 through III.300.6.6 in every subcontract, including procurements of materials and leases of equipment, unless exempt by the Acts, the Regulations, and directives issued pursuant thereto. The Contractor will take action with respect to any subcontract or procurement as the WCTID, ODOT or FHWA may direct as a means of enforcing such provisions including sanctions for noncompliance. Provided, that if the Contractor becomes involved in, or is threatened with litigation by a subcontractor or supplier because of such direction, the Contractor may request the WCTID to enter into any litigation to protect the interests of the WCTID. In addition, the Contractor may request the United States to enter into the litigation to protect the interests of the United States.

- A. Title VI of the Civil Rights Act of 1964 (42 U.S.C. § 2000d et seq., 78 stat. 252) (prohibits discrimination on the basis of race, color, national origin); and 49 CFR Part 21;

III 300.7 Entire Agreement. The Contract Documents contain the entire agreement between Contractor and WCTID, and no oral statements or prior written matter not specifically incorporated therein shall be of any force or effect. The Contract may not be modified except by a written document executed by both parties thereto.

SECTION III 400 WCTID and ENGINEER, WORK, AND PLANS

III 400.1 Authority of Engineer - The Engineer, in consultation with the WCTID: (a) has immediate charge of the engineering details of the Project; (b) is responsible for the administration and satisfactory completion of the Project; and (c) has the authority to reject defective material and to suspend any Work that is being improperly performed.

III 400.2 Errors and Omissions - The WCTID reserves the right, in consultation with the Engineer, to correct by change order any errors or omissions in said plans or specifications wherever such correction is necessary for the proper fulfillment of the intention of the plans or specifications.

III 400.3 Interpretation of Estimates - The quantities listed in the Bid Proposal form(s) are to be considered as approximate and are to be used for the comparison of bids only. The unit prices to be tendered by the Bidder are to be tendered expressly for the scheduled quantities which later may be increased or decreased within the restricting limits herein after stipulated. Where there is a conflict between the unit price and the extension thereof made by the Bidder, the unit price shall govern and the WCTID and/or Engineer shall be authorized to make a correct extension of such unit bid price and to use such corrected extension in comparing bids.

III 400.4 Pre-Construction Meeting - After the award of the Contract and before beginning any Work, the Contractor and its superintendent, shall meet with the Engineer for a pre-construction meeting, to review all restrictions and regulations governing the Work. Any schedules, requests, papers, approvals, submittals, changes, etc. as called for in the Contract Documents shall be made at this time unless otherwise directed.

III 400.5 Use of Premises - The Contractor shall confine its equipment, tools, the storing of materials, and the operation of its workmen within the right-of-way and/or Work limits as approved by the Engineer. It is emphasized that damage to vegetation, especially trees, shall be held to an absolute minimum.

III 400.6 Dust, Water Pollution, and Erosion Control - The Contractor shall be responsible for complying with the Water Management and Sediment Control Regulations of Warren County that are in effect at the date of letting. The Contractor shall employ measures to prevent or control spills of fuels or lubricants from entering the waters of the state and submit a contingency plan to the Engineer to be effective in the event of a spill. Dust shall be kept to a minimum.

III 400.7 Coordination of Plans, Specifications, and Special Provisions - The specifications, plans, special provisions, and all supplementary documents are essential parts of the Contract and a requirement appearing in one is as binding as though in all. In case of a discrepancy, unless otherwise directed by the WCTID or Engineer, figured dimensions shall govern over scaled dimensions and special provisions shall govern over both specifications and plans.

SECTION III 500 PROGRESS OF WORK AND QUANTITIES

III 500.1 Extra Work - Unforeseen or other work made necessary by minor alterations of the plans, or necessary to complete the proposed improvement contract, shall be deemed extra and shall be

performed by the Contractor in accordance with the specifications and as directed; provided, however, that before any extra Work is started, the Contractor has been authorized by the Engineer in writing to do the extra Work. When the nature of the extra Work required is such that the exact amount of the extra Work cannot be determined precisely, the Contractor shall proceed only when authorized to do so by the Engineer.

III 500.2 Incidental Work at Contractor's Expense - All Work done by the Contractor, specified or mentioned in the plans or specifications, as well as any minor details of Work not specifically mentioned but obviously necessary for the proper completion of the Work, shall be considered as incidental, and as being part of any included in the Contract. The Contractor will not be entitled to any extra or additional compensation for the same.

III 500.3 Increased or Decreased Quantities - The WCTID reserves the right to make such alterations in the plans or in the quantities of the Work as may be considered necessary or desirable, and no conditions or provisions of the Contract shall be ordered in writing and that equitable adjustment of compensation shall be agreed upon; provided further that before the Work is started on any such alteration at the opinion of the WCTID a Supplemental Agreement setting forth the adjustment shall be executed by the WCTID and the Contractor. The Contractor shall perform the Work as increased or decreased and compensation for materials shall be adjusted per unit price bid.

III 500.3.1 All change orders shall be in writing. The WCTID shall not pay any increase in expense, and Contractor agrees that it waives all right to payment for extras or otherwise valid claims for extras or change order Work performed without first (a) complying with the notice provisions set forth in the Contract Documents and (b) obtaining a prior approved change order.

III 500.3.2 Unit Prices for Remediation of hazardous materials. Contractor acknowledges that the Work for the WCTID under this Contract may involve the risk of encountering petroleum contaminated soils (PCS) or other hazardous materials during construction excavation and other work. Contractor agrees and represents that the nature of the Contract Work is such that any soil borings or similar analysis by WCTID or its Engineer or consultants may not indicate the complete and full amount of contaminated soils and that Contractor may encounter more extensive or additional PCS or other hazardous materials contamination during construction excavation than indicated in any soil borings or other tests. Contractor represents that its unit price bid for any remediation work involving hazardous materials includes all costs and considerations arising out of or relating to the Work involved, including the cost of schedule impacts as a whole, all delay-related costs (including but not limited to extended home office overhead, extended field conditions, extended site conditions, labor) and all costs to excavate, store, test, transport, and dispose of contaminated materials. The original Contract unit price shall thus cover all expenses and impacts associated with remediation and handling of both the contaminated soils identified in any environmental studies plus those actually discovered during construction. Contractor's payment for any required remediation work thus shall be at the original Contract unit price for the agreed quantities of the work in question and shall constitute full and final reimbursement of Contractor for the work and settlement of all claims arising out of or pertaining to the Work regardless of whether the Contract items vary in any respect from the estimated quantities. Notwithstanding the foregoing, WCTID has sole discretion to determine that an original Contract unit price would not be fair to WCTID or result in a windfall to Contractor, and may by notice to Contractor enter into negotiations over a reasonable price for excess contract Work involving contaminated soils.

III 500.4 Claims and Notice - Contractor shall submit to WCTID and Engineer any requests or claims for adjustment in the Contract Price, Time, or other provisions of the Contract for changes directed by the Owner, as a result of deficiencies or discrepancies in the Contract Documents, for unforeseen causes, unanticipated site conditions, and for any other circumstance otherwise permitted by law or

the Contract Documents within five (5) days of the act or occurrence giving rise to the claim and before Contractor proceeds to perform any extra Work and seek a confirmation of receipt from WCTID and Engineer. Within ten days after providing such written notice, Contractor shall submit a written statement to the owner setting forth in detail: (1) the nature and cause of the claim and the specific provision of this Contract which support such claim; (2) specific references to the details of the Drawings and any Specifications that are affected by the claim; and (3) an itemized and substantiated statement of the amount of the claim, or of the time extension support by such documentation as the Owner may reasonably request. Failure to provide such notice and said confirmation procedure within the five day period, or to comply with said written statement procedures within the ten day period, shall constitute Contractor's waiver of the right to compensation or time for the act or occurrence in question. Any increase in the Contract price, or extension in the Contract Time resulting from such claim or change may only be effected by an authorized written Change Order signed by WCTID.

III 500.5 Certification of Claims and Written Statement. All written statements (as set forth above in 500.4) and claims made by Contractor, or by any subcontractor or supplier of any tier through Contractor, shall be accompanied by a sworn and notarized certification by the designated representative of Contractor having overall responsibility for Contractor's affairs, stating: (1) the claim is made in good faith; (2) the supporting data are accurate and complete to the best of Contractor's knowledge and belief; (3) the amount requested accurately reflects the Contract adjustment for which Contractor believes the WCTID is liable. For subcontractor claims Contractor may not rely on subcontractor certifications but must conduct an evaluation reasonably sufficient to certify the claim as stated above. Contractor's certification of a false or inaccurate claim will entitle WCTID to recover its costs of investigating, evaluating, and defending such including but not limited to attorney, accountant and expert fees, from Contractor and/or the individual certifying the claim. Failure to provide a full and complete Certification required at the time the claim or written statement is provided shall constitute Contractor's waiver of the right to the relief it has requested but failed to properly or timely certify.

III 500.6 Date of Completion - The Contractor shall have completed the Work, or any portion thereof, on or before the calendar date and/or time period specified in the Contract Documents, including any interim completion dates or milestones. Otherwise the WCTID may proceed per Sections 500.7 and 500.8 of these Specifications. If the Contract is revised in any material respect and it is determined that said revision will cause delay in the completion of the Work, the WCTID shall postpone the completion date by the number of calendar days they determine.

III 500.6.1 Delays for Cause. When delay occurs due to unforeseen causes beyond the control and without the fault or negligence of the Contractor, including but not restricted to calamities, force majeure, acts of the public enemy, acts of Government, acts of the State or any political subdivision thereof, fires, floods, epidemics, pandemics, strikes, except those caused by improper acts or omissions of the Contractor, extra ordinary delays in delivery of materials caused by strikes, lockouts, wrecks, freight embargoes (acts of Government) or calamities, the time of completion shall be extended in whatever amounts determined by the WCTID to be equitable, provided notice and certification has been given as required above. This provision shall become effective only if the Party failing to perform notifies the other party within a reasonable time of the extent and nature of the Force Majeure Event, limits delays to those required by the Event, and takes all reasonable steps to minimize damages and resume performance.

III 500.6.1.1 A "Calamity" is construed to mean an earthquake, flood, cloud burst, cyclone, or other cataclysmic phenomenon of nature beyond the power of the Contractor to foresee or to make allowances for.

III 500.6.1.2 “Force Majeure” is construed to mean events including but not limited to, civil disturbances, armed conflict or the serious threat of the same (including but not limited to hostile attack, blockade, military embargo); act of terrorism, sabotage or piracy; plague, epidemic, pandemic, outbreaks of infectious disease or any other public health crisis, including quarantine or other employee restrictions; act of authority whether lawful or unlawful, compliance with any law or governmental order, rule, regulation or direction, curfew restriction, expropriation, compulsory acquisition and/or seizure of works.

III 500.6.1.3 Delays and Time Extensions when the proximate cause is the act or inaction of the WCTID. If the Contractor is delayed in the progress of the Work by causes reasonably beyond its control and through no fault of its own, where the proximate cause of the delay is the WCTID’s actions or inactions (within the meaning of ORC §4113.62(C)(2)), the Contractor shall be entitled to a reasonable time extension and extended field general conditions in a reasonable amount as determined by the WCTID after consultation with its Consultant, Construction Manager, or Architect, if any. In addition, Home office overhead shall be allowable pursuant only to the Eichleay formula as applied by the Courts of Ohio and such unabsorbed home office overhead shall (a) be based on business days lost to the critical path of the Project and (B) only be allowed if the cumulative delay in question to the critical path exceeds fourteen (14) days. Contractor represents and agrees that any such extension of time, extended field general conditions, and Eichleay Damages shall be the Contractor’s sole remedy and measure of “delay damages” and Contractor represents as a material inducement to WCTID to enter this Contract, that Contractor shall not be entitled to any additional compensation for any other damages allegedly arising out of or relating to the delay in question, including but not limited to, any additional fees, costs of acceleration, consequential damages, loss of efficiency, loss of productivity, lost opportunity costs, impact damages, lost profits or other similar remuneration.

III 500.6.2 No time extensions will be granted for any delay or suspension of the Work due to fault of the Contractor.

III 500.6.3 Postponement of the completion date shall be immediately recorded by the appropriate journal entry by the WCTID and the Contractor formally advised. If the WCTID should suspend the Work in whole or in part as provided in Section 500.8 of these specifications, the date of completion shall be extended the number of days that the suspension directly or indirectly delays completion of the Work.

III 500.6.4 If the WCTID for any reason extends the completion date, the extension of time shall not relieve the bond annexed this agreement or the sureties thereon from any of the obligations therein expressed.

III 500.6.5 If the Contractor files any bankruptcy related action such as Chapter 7 or Chapter 11 or placed in receivership, the WCTID may terminate this Contract and seek alternative completion, may seek to make a claim on any performance bond, or take any other

action it deems necessary or prudent to timely complete the Work. The Contractor will be not be entitled to any payment for Work completed to date until such time as the Project is finally complete. At that point, Contractor shall be entitled to payment for Work completed at the time of its termination less any damages or expenses incurred by the WCTID in re-soliciting the project, awarding it elsewhere, or completing it itself (the "Completion Damages"). If the Completion Damages exceed the balance on the Contract left at the time of the termination (including amounts due Contractor for its Work completed to date), Contractor shall be responsible for paying the difference to the WCTID. Otherwise, the WCTID shall pay the Contractor for Work completed to date less the WCTID's damages.

III 500.6.6 Coordination Responsibilities. The parties understand and agree that if the Work or any portion thereof involves work of or coordination with any public utilities, telecommunication providers or railroad companies or entities responsible for any necessary utility relocation, telecommunication facilities, railroad coordination, or electrical service installation or any similar services required during the construction to complete the construction within the Contract times for Date of Completion, the Contractor assumes responsibility for such coordination and any delays resulting therefrom. Any Contractor costs for such shall be incorporated into the line item and/or profit and overhead markups incorporated into the Contract and the time for same shall be considered incorporated into Contractor's obligation to complete within the Contract times for Date of Completion. To the extent reasonable the WCTID will assist Contractor in facilitating such coordination, but such assistance shall not relieve the Contractor of its obligations hereunder. The WCTID will coordinate with and obtain approval by ODOT and/or the Engineer, as may be appropriate or required, for any necessary traffic signal or roadway design elements of the construction. Contractor shall be responsible to coordinate any inspections or approvals necessary to be obtained from ODOT and/or the Engineer, as may be appropriate or required, for the Work during construction.

III 500.7 WCTID to Complete Work In Case of Failure - If in the opinion of the WCTID, the Contractor has not commenced the Work, within a reasonable time or does not carry the same forward with reasonable progress, or is improperly performing the Work or any portion thereof, or has abandoned or fails or refuses to complete the Work under the provisions of these specifications and the Contract, said WCTID shall have full power and authority to enter upon and construct said improvement or any part thereof either by Contract, force account, or in such manner as it may deem for the best interest of the public; paying in full costs and expenses thereof from the balance of the Contract price unpaid to the Contractor. In case there is insufficient balance to pay for the Work, the WCTID shall require the Contractor, or the surety on its bond, to pay the cost of completing the Work.

III 500.7.1 The WCTID shall withhold estimates, or partial estimates, that may be due the Contractor for Work performed to date, until it has fulfilled all the provisions mentioned above the extension of time.

III 500.7.2 If the conditions beyond the control of the WCTID or Contractor prevent the completion of the project, such as (but not limited to) changes in the law, EPA regulations, catastrophe or court order, then the WCTID may, in its discretion, pro-rate and cancel the project. Any materials purchased but not utilized shall be paid for by and become property of the WCTID.

III 500.8 Failure to Complete by Specified Date - Time is of the essence of this Contract. The parties hereto acknowledge that the WCTID is entitled to full use of the completed Work, or any portion thereof as applicable to any interim completion dates or milestones, following expiration of the Contract Time for such Work, and that if the Contractor fails to complete the Contract or any portion thereof on or before any such contractually specified completion date the WCTID will sustain extensive damage and serious loss as a result. The exact amount of such damages will be

extremely difficult to establish and calculate with certainty. Thus, the WCTID and Contractor agree that if the Contractor fails to complete the Work or any portion thereof or before the date agreed upon as mentioned elsewhere in the Contract, or before the interim, milestone, or substantial completion or Date of Completion agreed upon as mentioned elsewhere in the Contract the WCTID shall be entitled to retain or recover from the Contractor, as liquidated damages and not as a penalty, the per diem amounts set forth in the 2023 ODOT CMS Table 108.07-1 SCHEDULE OF LIQUIDATED DAMAGES (the "2023 ODOT CMS Schedule of Liquidated Damages"), commencing upon the first day following expiration of the Contract time or interim completion date or milestone, as appropriate and continuing until the actual date of substantial completion. Contractor and the WCTID agree that such liquidated damages are a reasonable pre-estimate of damages the WCTID will incur because of delayed completion of the Work.

III 500.8.1 The WCTID may deduct liquidated damages described above from any unpaid amounts then or thereafter-due Contractor under the Contract. Any liquidated damages not so deducted from any unpaid amounts due the Contractor shall be payable to the WCTID upon demand.

III 500.8.2 The liquidated damages set forth herein shall be WCTID's exclusive damage remedy for Contractor's failure to complete the Work on or before the date of substantial completion or interim completion date or milestone, but such liquidated damages shall in no way limit Owner's entitlement to damages for any other injury, damage, or loss, other than for delay, for which Contractor may be responsible pursuant to the terms of this Agreement or applicable law.

III 500.9 Suspension of Work - For such a period as is necessary or during such time the weather is unsuitable for proceeding with the Work, the WCTID may suspend Work, at places or altogether, if in its opinion, public need requires it. In case of such suspension during a working season, the time within which the Contractor is required to complete the Work shall be extended by as many days as the same was suspended. Upon any stoppage of the Work, all material shall be safely placed, so as to not obstruct or impede travel on the right-of-way.

III 500.10 Order and Progress of Work - The Work under this Contract shall be prosecuted at as many different places, at such times in such sections along the improvement and with such forces as the Engineer may direct. Completed portions of the roadway shall be opened to travel as directed by the Engineer, but shall not be construed as an acceptance of the Work done. Should the Work, for any reason, be discontinued by the Contractor, it shall, before again commencing the Work, give the Engineer notice of its intention at least twenty-four (24) hours in advance of commencement.

III 500.11 When Estimates May Be Withheld - Estimates may at any time be withheld or reduced if, in the opinion of the WCTID, the Work is not proceeding in accordance with the provisions of this contract; or if the Work is not progressing in proportion to the time spent working; or if the estimate is not in the same proportion to the entire contract price as the amount of the Work completed is to the entire Work.

III 500.12 Violations - At no time during the execution of this Contract shall the Contractor or any subcontractor violate any Federal, State, Municipal, Township, or local laws, statutes, regulations, ordinances, or resolutions.

III 500.13 Injunctions - If legal obstruction to the completion of the Work arises, and if the legal obstruction will cause delay in the completion of the Work, the WCTID may postpone the completion date by the number of calendar days they determine.

III 500.14 Termination for Cause. If the Contractor breaches any of its obligations under this Agreement, then WCTID may give Contractor written notification identifying such breach as a potential termination for cause. If Contractor has not cured such breach within seven (7) calendar days from

its receipt of Owner's written notification, or if such breach cannot be cured within such seven (7) day period, then Owner may terminate this Contract for cause and take possession of the Work. Alternatively, instead of terminating the Contract, Owner may cure the breach and deduct the cost thereof from amounts otherwise owed to the Contractor.

1. Upon a termination for cause hereunder the WCTID may, without prejudice to any other rights or remedies it has:
 - a. Exclude the Contractor from the site and take possession of all materials, equipment, tools, and construction equipment and machinery thereon owned by the Contractor;
 - b. Request and accept assignment of subcontracts; and
 - c. Finish the Work by whatever method it deems expedient.
2. When the WCTID has terminated the Contract for cause the Contractor shall not be entitled to receive further payment until the Work is finished. If the unpaid balance of the Contract Sum exceeds the costs of completing the Work ("Completion Costs"), including but not limited to:
 - a. compensation for any additional design or architectural costs and expenses;
 - b. costs of rebidding and contracting for the completion of the Work; and
 - c. attorneys' fees and Architect's fees incurred arising out of or related to the termination and completion of the Work, such excess will be paid to the Contractor.
3. If the WCTID's Completion Costs exceed the unpaid balance, the Contractor shall pay the difference to the WCTID on demand. This obligation for payment shall survive termination of the Contract. When exercising any rights or remedies under this Section, the WCTID shall not be required to bid out or obtain the lowest price for the Work performed but shall in its discretion act in a commercially reasonable manner.
4. If a termination for cause hereunder is later determined or adjudged to be improper then such termination shall convert, and shall be accepted by the parties, to be a termination by WCTID for convenience subject to the terms and conditions set forth below. In such case the Contractor's sole right, remedy and recourse shall be determined by Section 500.15.

III 500.15 Termination for Convenience. The WCTID may terminate this Contract, in whole or in part, for WCTID's convenience and without cause if it determines, for any reason and in its sole discretion, that such termination is in its best interest. A Termination for Convenience hereunder shall be effected by delivery to the Bidder or Contractor of a Termination Notice specifying the extent to which the Contract is terminated and the date such termination becomes effective. If the Contract is terminated before performance is completed, the Contractor will be paid only for that work satisfactorily performed and in place for which costs can be substantiated based on the Contract value for the work in question. Such payment shall in no case exceed an amount which is the same percentage of the Contract Price as the amount of work satisfactorily performed.

III 500.16 Upon any termination of the Contract hereunder, all work in progress will become the property of the WCTID and will be turned over promptly by the Contractor after it has taken commercially reasonable steps to protect the work and any equipment or materials procured for prosecution of the Work.

SECTION III 600 CONTRACTOR INSURANCE REQUIREMENTS

The following types of insurance coverages and limits are required and shall be written for not less than the following, or greater if required by law and/or as otherwise specifically provided in the

Contract or required by the WCTID as listed below. The WCTID, WCEO, Warren County, the Township of Deerfield, Warren County, Ohio and their respective trustees, commissioners, officers, agents and employees are to be named as additional insureds with all rights under those policies unless otherwise determined by the WCTID.

III 600.1 Workmen's Compensation and Employers Liability as required by the laws of the State of Ohio.

III 600.2 The Contractor shall not commence Work under the Contract until it has obtained all the insurance required hereunder and has submitted, in quadruplicate, an appropriate Declaration of Insurance, as evidence of coverage which has been approved by the WCTID and concurred by the Engineer. The Contractor shall not allow any Subcontractor to commence Work on its subcontract until all similar insurance required by the Subcontractor has been so obtained and approved. Approval of the insurance by the WCTID shall not relieve or decrease the liability of the Contractor hereunder.

III 600.3 Contractor's Liability Insurance

III 600.3.1 The Contractor shall acquire and maintain during the term of the Contract Bodily Injury and Property Damage Liability Insurance under a standard Comprehensive General/Automobile Liability Policy which shall provide and include coverage on all Contractor's Operations, Protective (Sublet) Liability, Contractual Liability, Completed Operations Liability, Owned Automobiles and Non-Owned and Hired Automobiles.

III 600.3.2 Coverage for an "if any" basis: Property Damage Liability Insurance shall be provided on any demolition, blasting, excavating, shoring or similar operation on an "if any" basis.

III 600.3.3 Bodily Injury Liability limits shall be for an amount of no less than Two-Million **(\$2,000,000.00)** Dollars for injuries, including wrongful death to any one person and subject to the same limit for each person, in an amount of not less than Two-Million **(\$2,000,000.00)** Dollars on the account of any one occurrence.

III 600.3.4 Comprehensive Automobile Liability Insurance policy shall cover owned, non-owned, and hired vehicles with minimum limits as follows: Bodily Injury and Property Damage Liability Limit Each Occurrence **\$1,000,000.**

III 600.3.5 Property Damage Liability Insurance in an amount of not less than Two-Million **(\$2,000,000.00)** Dollars per occurrence with General Liability extended to provide "Broad Form Property Damage Liability" and in an amount of not less than Five-Million **(\$5,000,000.00)** Dollars aggregate for damage on account of all occurrences.

III 600.3.6 Any combination of underlying Comprehensive General/Automobile Liability coverage with Umbrella/Excess Liability coverage which provides **no less than** Five-Million **(\$5,000,000.00)** Dollars Single Limit Bodily Injury & Property Damage Liability Insurance for the Contractor will also be acceptable.

III 600.4 Project Protection. Until WCTID's final acceptance of the Work and Contractor's acceptance of final payment from WCTID for the Work, Contractor agrees that it is responsible to protect the Project, the Work, and/or the WCTID, WCEO, Warren County, Ohio, Deerfield Township, and their respective boards, chairpersons, officers, trustees, commissioners, employers, members, agents, and volunteers from claims or loss incurred by fire, lightning, vandalism, theft, explosion and malicious mischief, and the risk of loss or any and all labor and materials connected with the Work (including materials delivered to the site but not yet installed). Contractor may, but is not required to, maintain insurance to cover the above risks as they pertain to the Project. Such insurance may include Contractor's Risk and/or Installation Floater insurance coverage, but its decision to obtain such insurance, or failure to do so, will not impact its obligations as set forth herein.

III 600.5 The Policies as listed in the paragraph's 600.1 through 600.4 shall all contain the following special provisions:

- * *The Contractor agrees that written notice will be mailed to the WCTID thirty (30) days prior to cancellation or reduction of the insurance afforded by this policy with respect to the Contract involved.*
- * *The Contractor shall submit evidence of such insurance to the WCTID with the executed contract in the form of a Certificate of Insurance, naming the Warren County Transportation Improvement District as the Certificate holder.*

III 600.5.2 Should any liability arise as a result of the action of the Contractor, subcontractors, or employees for which there is insufficient insurance coverage, the Contractor agrees to indemnify, defend, and hold the WCTID harmless from any liability or judgment (including reasonable attorneys fees and litigation expenses) and losses.

SECTION III 700 PAYMENTS, RETAINAGE, AND FINALITIES

The contractor shall furnish the WCTID with an affidavit every thirty (30) days during the construction period stating that all employees and sub-contractors performing services on this project have been paid the prevailing rate of wages as certified by the Department of Industrial Relations provided by Chapter 4115 of the Revised Code of the State of Ohio.

III 700.2 Right of Direct Pay - The Contractor furnish upon the request of the WCTID prior to any partial payment(s) an affidavit listing money owed or paid to all subcontractors, laborers, or materialmen, and the WCTID, upon receipt of said affidavit, may, in its discretion, disburse appropriate sums owing as indicated directly to subcontractor's, materialmen, and laborers, with the balance being remitted to the Contractor.

III 700.3 Retainage - Partial payments to the Contractor for labor performed under either a unit price or lump sum price contract shall be made at the rate of ninety-two (92) percent of the estimates prepared by the Contractor and approved by the Engineer. All labor performed after the project is fifty (50) percent complete shall be paid for at the rate of one-hundred (100) percent of the estimates submitted by the Contractor and approved by the Engineer. The aforementioned requirements are pursuant to Section 153.13 of the Ohio Revised Code.

III 700.3.1 From the date the contract is fifty (50) percent complete, as evidenced by payments in the amount of at least fifty (50) percent of the contract to the person(s) with whom the WCTID has contracted, except in the case of contracts the total cost of which is less than fifteen thousand (\$15,000) dollars, all funds retained pursuant to Sections 153.12 and 153.14 of the Ohio Revised Code for the faithful performance of Work shall be deposited in the escrow account designated in Section 153.63 of the Ohio Revised Code. After the contract is fifty (50) percent complete, no further funds shall be required.

II.700.4 Progress and Final Payment Releases - All applications for payment ("Pay Applications") shall be submitted in form acceptable to WCTID, shall include a complete description of the labor and materials supplied, and the work done during the period covered by the Pay Application (the "Pay Period"). As a condition precedent to Contractor's right to payment for Work performed, all Pay Applications shall be accompanied by (i) a list of all suppliers and subcontractors whose materials or services have been utilized by Contractor to perform the work described in the Pay Application,

and (ii) a signed waiver of and release from any claims, on a form provided by or acceptable to the WCTID, that waives and releases all claims that could be asserted by Contractor for labor or materials performed during the Pay Period. Such waivers may be conditional on receipt of payment. Contractor agrees to furnish, if and when required by the WCTID, payroll affidavits, receipts, vouchers, releases of claims for labor, material and subcontractors performing work or furnishing material under this Agreement, all in form satisfactory to Owner. Pay Applications shall not be submitted more frequently than monthly, unless otherwise agreed in writing by the WCTID, and shall include all charges made since the preceding Pay Application Period.

III 700.5 Final Cleaning Up - Upon completion of the Work and before acceptance and final payments shall be made, the Contractor shall clean the roadway, borrow pits, stream channels and banks within the right-of-way at drainage structures, and all ground occupied by the Contractor in connection with the Work, of all rubbish, excess materials, false work, temporary structures and equipment, and all parts of the Work shall be left in a neat and presentable condition satisfactory to the Engineer. All land on which a temporary easement existed shall be returned to its preconstruction condition by the Contractor, the expense of which is included in the amount of this contract.

III 700.6 Final Inspection - Wherever the Work provided and contemplated by the Contractor has been satisfactorily completed and the final cleaning up performed, the Engineer shall, within ten (10) days, unless otherwise provided, make the final inspection.

III 700.7 Final Payments - The Engineer shall, as soon as possible after the completion of the entire Work, certify such completion to the WCTID, and the WCTID shall pay the entire sum so found to be due hereunder, after deducting therefrom all previous payments and all amounts to be kept and all amounts to be retained, under the provisions of this contract. All prior partial estimates and payments shall be subject to correction in the full settlement.

III 700.8 Payment of Total Costs to be Final Settlement of all Claims of the Contractor - The WCTID shall pay, and the Contractor shall receive, the sum herein stipulated as full compensation for everything furnished and done by the Contractor under this contract, including all incidental work required but not specifically mentioned, and also for all loss or damage arising out of the nature of the Work aforesaid, or from the action of the weather, or from any unforeseen obstruction or difficulty encountered in the prosecution of the Work, and for all risks of any description connected with the Work, and for all expenses incurred by or in consequence of the suspension or discontinuance of the Work, as herein specified, and for well and faithfully completing the Work, and whole thereof, as herein provided, together with remedying all defects developing during the period for which the Work is guaranteed. Final payment by the WCTID does not release the Contractor for any defects in construction, workmanship, or materials which could not have been ascertained by reasonable inspection.

III 700.9 Last Payment to be Final - Before the final estimate is allowed, the WCTID will require the Contractor to submit an affidavit showing that all claims and obligations arising in connection with the performance of the contract to include, but limited to, money owing to subcontractors, materialmen, or laborers have been satisfactorily settled. This requirement also includes an affidavit from any sub-contractor(s) employed on the project. The acceptance by the Contractor of the last payment as aforesaid shall operate as and shall be a release to the WCTID and agents thereof for all claims and liability to the Contractor for anything done or furnished for, or relating to the Work, or for any act or neglect of the WCTID, or of any person relating to or affecting the Work.

III 700.10 Construction Funds Held in Trust. Contractor agrees that all funds it receives from WCTID for the performance of this Contract shall be held in trust by Contractor for the benefit of all its Subcontractors, suppliers, laborers, and materialmen, and Contractor shall not itself have any interest in such funds until all these obligations have been satisfied in full. Contractor further agrees that any funds received shall be used exclusively for the prosecution of the Project Work, and none

will be diverted to satisfy other obligations of Contractor. WCTID does not have an obligation to pay or see to the payment of money to any subcontractor or supplier.

SECTION III 800 CLOSE-OUT PROCEDURE

III 800.2 Upon receipt of the letter claiming substantial completion of the Work, the Engineer will conduct an inspection. A list of items requiring completion or correction will be issued. Individual sole proprietors do not have to pay themselves prevailing rate but must report their hours on the project.

Employees working more than one classification should have separate line entries for each classification. Indicate what year/level for Apprentices. Be specific when using laborer and operator classifications; for example, Backhoe Operator or Asphalt Laborer.
- Hours Worked, Day & Date:** In the first row of column 3 enter days of pay period example; M T W T H F S S. The second row is for the date that corresponds with each day for the pay period. Employers must pay this total amount in one of three ways.
 - Total rate may be paid in entirety in the base rate to the employee; in which case, the cash designation will be checked for fringe benefits.
 - Total rate may be paid as listed in prevailing wage rate schedule with total fringe amounts paid approved plans.
 - Total rate may be paid with a combination of base rate and fringe payments to approved plans in amounts other than those listed in schedule.
- Project Gross:** Enter total gross wages earned on the project for straight time and overtime. Project hours X base rate should equal project gross.
- Fringes:** If fringe benefits are paid in the hourly base rate, indicate this by marking the **Cash** space. If fringe benefits are paid to approved plans as listed in the prevailing wage rate schedule, mark the space **Approved Plans**. If fringe benefits are paid partially in the base rate and partially to approved plans, mark the space **Cash & Approved plans**. List the hourly amount paid to approved plans for each fringe. If payments are not made on a per hour basis, **calculate the hourly fringe credit by dividing the yearly employer contribution by** the lesser of: hours actually worked in the year (these must be documented) or **2080**. Fringe benefits include: **Employer's share** of health insurance, life insurance, retirement plan, bonus/profit sharing, sick pay, holiday pay, personal leave, vacation, and education/training programs. If unsure of a possible fringe benefit, contact the Ohio Department of Commerce - Division of Industrial Compliance and Labor - Bureau of Wage & Hour Administration.
- Total Hours All Jobs:** Total all hours worked during the pay period including non-prevailing wage jobs.
- Total Gross All Jobs:** Gross amount earned in the pay period for all hours worked.

Section 4115.07, Ohio Revised Code.

Apprentices will be permitted to work only under a bona fide apprenticeship program if such program exists and if such program is registered with the Ohio Apprenticeship Council.

Section 4115.071 provides that no later than ten days before the first payment of wages is due to any employee of any contractor or subcontractor working on a contract regulated by Chapter 4115, Ohio Revised Code, the contracting public authority shall appoint one of his own employees to act as the prevailing wage coordinator for said contract. The duties of the prevailing wage coordinator are outlined in Section 4115.071 of the Ohio Revised Code.

Section 4115.05 provides for an escalator in the prevailing wage rate. Each time a new rate is established, that rate is required to be paid on all ongoing public improvement projects.

A further requirement of Section 4115.05 of the Ohio Revised Code is: "On the occasion of the first pay date under a contract, the contractor shall furnish each employee not covered by a collective bargaining agreement or understanding between employers and bona fide organizations of Labor with individual written notification of the job classification to which the employee is assigned, the prevailing wage determined to be applicable to that classification, separated into the hourly rate of pay and the fringe payments, and the identity of the prevailing wage Coordinator appointed by the public authority. The contractor or subcontractor shall furnish the same notification to each affected employee every time the job classification of the employee is changed."

Work performed in connection with the installation of modular furniture may be subject to prevailing wage.

THIS PACKET IS NOT TO BE SEPARATED BUT IS TO REMAIN COMPLETE AS IT IS SUBMITTED TO YOU. (Reference guidelines and forms are included in this packet to be helpful in the compliance of the Prevailing Wage law.)
