## **WASTEWATER TREATMENT CHIEF OPERATORS JOB ANNOUNCEMENT**

*Corwin Nixon Covered Bridge at the Little Miami River*

## **OUR COMMUNITY**

Our “Incredible County” is one of the fastest growing affluent communities in Ohio and was recently ranked the Top County for economic growth in the greater Cincinnati area. Nestled between the bustling Cities of Cincinnati and Dayton, the County is home to the communities of Mason, Lebanon, Springboro, and Waynesville. We are proud to be Ohio’s Largest Playground drawing visitors throughout the tristate area to major attractions including the Kings Island amusement park, the Western & Southern tennis tournament, the Little Miami state and national scenic river, world class sports facilities, and the Fort Ancient prehistoric earthworks and nature preserve. The County is supported by excellent school systems, reasonable tax rates, and is home to vibrant, energetic, young professionals. It truly is a great community for work and play!

## POSITION SUMMARY

**LLMWWTP Chief Operator \$78-\$95k**  
**WRWWTP Chief Operator \$65-\$80k**

Warren County is looking for individuals to lead our team of operators, maintenance staff, ground crew, and technicians with the management of the Lower Little Miami and Waynesville Regional wastewater treatment plants.

The chief at the Lower Little Miami WWTP will oversee the operation the County's 12 million gallon per day (mgd) facility that provides service to the Deerfield and Hamilton township areas. The treatment plant has an Ohio EPA Class IV rating and is equipped with fine screens, Vertical Loop Reactors, phosphorus removal through chemical addition, and ultraviolet disinfection.

The Waynesville Regional facility is located on the national and state scenic Little Miami River and serves the communities of Waynesville, Corwin, and Harveysburg. This facility was recently upgraded with new preliminary treatment, aeration equipment, clarifiers, chemical feed system, and instrumentation and controls. It has a design capacity of 0.7 mgd and is rated as a Class II facility.

## WHO WE ARE

The Warren County Water and Sewer Department is a regional water utility that builds and operates world-class wastewater treatment facilities. The department operates five wastewater treatment plants serving over 25,000 sewer customers. We maintain over 340 miles of sanitary sewers and over 70 lift stations.

The County also owns and operates two water treatment plants with a total rated capacity of 24 million gallons per day serving over 34,000 water customers. We maintain 750 miles of water mains, 1,500 main line valves, and 6,500 fire hydrants.

The department operates with a 50 million dollar annual budget that covers expenses and capital projects. Warren County Water and Sewer has it's own finance division along with a customer service , geographic information system, backflow prevention division, engineering, and instrument and controls divisions.

We encourage you to imagine your career with Warren County Water and Sewer. Be part of a team of over 80 employees who are dedicated to providing the County residents with the best service possible.

## EDUCATION & EXPERIENCE

These positions require two years work experience as a supervisor in a treatment facility. Work at the Lower Little Miami facility requires a Class IV Ohio EPA wastewater treatment licensure while the Waynesville plant requires a Class II license.
